

KEYSTONE XL PROJECT
Draft Supplemental Environmental Impact Statement
U.S. Department of State

PROTOCOL AND COMMON QUESTIONS FOR THIS EVENING'S MEETING

What is the purpose of this evening's meeting? This evening's meeting is an open house intended to provide members of the public information about the Keystone XL Project and an opportunity to comment on the Keystone XL Project Draft Supplemental Environmental Impact Statement (Draft SEIS).

How do I provide comments? You can submit comments on the Draft SEIS at this evening's meeting at the "We Want Your Comments" poster stations in the following three ways (also see the back of this handout):

- Verbally: A stenographer is available to record verbal comments.
- Written: Comment forms are available at the sign-in desk and throughout the ballroom. The forms can be completed at the meeting and placed in one of the comment boxes located throughout the ballroom or submitted at the sign-in desk.
- Electronic: Computer stations are available in the ballroom that will allow access to the regulations.gov website. A meeting representative will be available to help navigate you through the website if needed.

What will the Department do with my comments? The Department will review all comments received during the public comment period. The Final SEIS will reflect consideration of all comments, contain the responses to the comments, and provide revised SEIS text.

What if I wish not to provide comments at this evening's meeting? Comments on the Draft SEIS will be accepted until November 18, 2019. Comments outside of this evening's meeting can be submitted in writing or electronically (see back of handout for further information).

What is the meeting format? This evening's meeting has an open house format. Stations providing information on the Keystone XL Project, Draft SEIS and public comment process are located throughout the ballroom.

What if I have questions or comments on other pipeline projects? The focus of this evening's meeting is on the Keystone XL Project Draft SEIS. Information on other pipelines will not be available during this meeting.
